Air Traffic Control Training – Over 15 years of Air Traffic Control training experience.
Air traffic organizations around the world depend on Pan Am International Flight Academy to provide training to their air traffic personnel. Annually, these organizations enroll hundreds of students in the Academy’s comprehensive ATC training programs. From basic (Ab-Initio) to advanced (Refresher) training courses, Pan Am ATC provides specialized curriculum that is customized to each client’s specific airspace and training requirement.

- Licensed controllers with practical experience in the specific courses
- ADSB-in/out CPDLC
- Comprehensive training in all areas of ATC including Radar, Non-Radar and Aerodrome
- Capability of delivering training at all levels from Initial (Ab-Initio) through Advanced (Refresher)
- All training programs conform to the latest ICAO standards and recommended practices
- All training programs are customized to each client’s airspace and regulatory environment
- ICAO (9835) standards and English Certificate program are integrated into ATC training
- Civilian mixed use training capabilities
- Programs delivered in Miami, Florida or at client’s facilities
- Programs taught in English and various languages

All of Pan Am’s training programs are taught by licensed controllers with practical experience in the specific courses they deliver. Standard and custom-designed curriculum is developed with each client and modified to meet the client’s specific environment. All of Pan Am’s Air Traffic Control training programs conform to ICAO and ICAO TRAINAIR Standards and Recommended Practices (SARPS) and are in compliance with ISO 9001 procedures that are updated annually.

With our origins being Pan Am Airline's Training Department, we have a better understanding of airlines' need to maintain the highest training standards while keeping cost under control. Pan Am Academy's maintenance training programs have been developed with these goals in mind.
The Pan Am name is a synonym of flight. As the original training division of Pan American World Airways, Pan Am International Flight Academy is a Global Leader in Aviation Training and has more experience, more Simulator Fleet Types, and more programs than any other training organization. Ours is a legacy of innovation and dedicated customer service, capable of providing 100% of the Airline Training requirement.

From Cadet Pilot Training with Airline Transition, to Type Ratings, Cabin Crew Training, ATC, Dispatcher, Maintenance Engineer, Emergency Training and more, we have the Certifications, Programs, and Equipment. We can customize training programs to meet your individual needs and train at our location or yours.

Turn to a legend, Pan Am International Flight Academy, the Aviation Training Leader.
